Dulux on 0860 330 111

Colour references are as accurate as printing will allow. Please refer to the in-store stripe cards/standard card, or on-shelf colour displays for an accurate representation of the colour.

Among others, the following factors may affect final colour appearance: product sheen and texture, colour and light reflections, application, surface texture and preparation.

For best colour and sheen consistency, it is advisable to use containers of the same batch number, to mix different batches together in a large container, or to finish in a corner before starting a new container.

“Dulux Paints have been specially developed to offer a high quality range that will provide a long lasting professional finish.”

Dulux, the dog logo, Weatherguard, Dulux Let's Colour and all distinctive colour names are trade marks of the AkzoNobel Group® AkzoNobel 2011
